

# We've Reorganized, and Safety is Our Top Priority:

- Masks must be worn at all times per New York State Mandate.

## Equipment

- Equipment has been reduced and relocated to provide distancing that generously exceeds the CDC recommendations of 6 feet, and provides a comfortable means of navigating around the club.

## Classes

- Per state requirements, masks must be worn at all times.
- We've temporarily reduced class sizes to approximately 25% of capacity, to give members plenty of social distancing.
- Look for the floor decals when you get to a Group X class, which will mark your personal space for class.
- Classes are no longer scheduled back to back, to avoid cross traffic.
- You must register for classes in advance. Group Exercise Class capacity will be limited and reconfigured to meet social distancing requirements. To attend Group Exercise Classes, you **MUST** register ahead of time. Registration for classes will open the day before classes are offered. You can register for your class on our website.
  - If you have not logged in prior, you will need to create a login.
  - ALL MEMBERS ARE LIMITED TO ONE GROUP X CLASS PER DAY.
  - Power 30 classes may be booked a week or two in advance.
  - No free guest passes will be allowed for class or club use. Must pay guest fee. Once club is opened all virtual classes will be available for members only. They will be found under a new BAC member only Facebook group. The administrator will accept them to the group once they verify they are a current member of either BAC or RAC.
  - Members are limited to 90 minutes of club usage each day. this rule will be enforced if we approach capacity. Data track can provide us with a list of members who are over 90 minutes. ***IT IS VERY IMPORTANT EVERY MEMBER CHECKS OUT TO AVOID CAPACITY PROBLEMS.***

## Traffic Patterns

- When you enter the club, follow the footsteps to keep your distance on the way in, use the touchless check in, and avoid congregating at the front desk.
- Arrows will direct you through the club in a one way traffic pattern, to help everyone more easily maintain adequate social distance.
- Look for the green arrows. Even the locker room has a single entry/single exit, so please be aware of one way traffic throughout the facility.

- A red floor decal marked “Red Zone” indicates a restricted area, such as the offices or corridors that are now closed to members.

## **Cleaning Procedures**

- We’ve fully reevaluated our cleaning products, procedures, and schedules.
- We are requiring members to clean equipment before and after use, using an improved cleaning product that you will see in green bottles throughout the club. Spray the small towel, wipe down equipment, and toss the towel into the basket next to the equipment.
- We ask that you wipe down any equipment used, including weights, bar bells...anything you touch.
- Staff members will be sanitizing the club throughout the day with a separate EPA approved virucide, Renegade XXX, and will use this same product for a deep sanitation at night. This product is a hospital grade product. Orange cones will indicate any areas that are undergoing a sanitation during club hours.
- Cleaning and sanitation product information is available for your review at the club.

## **Temporarily Unavailable:**

- Showers, sauna, lockers, and seated vanities are temporarily unavailable.
- Toilets and sinks are available for use.
